The Hon, P. fore RYRIE was the Chairman of that Committee, and the other members were the Hon, E. L. O'MALLEY, the Hon. A. LISTER, and the Hoa. F. D. Sassoon, the Chairman to have a casting vote. We have heard very little of the grievance since the Committee was appointed, and the length of time the Committee has taken to prepare its report raises the presumption that they have not found; it of a very pressing nature; though no doubt under the present loose system extortion more or less must prevail. In the debate which took place at the time the Committee was appointed some remarks were made about the Cargo-boat Guild, and Mr. Ryris recommended that it should be dealt with-in the sense, no doubt the hop, gentleman meantof being suppressed or controlled. W. Y. DRUMMOND, Chairman. Shanghai, 29th April, 1886.

The CHAIRMAN said this was the first annua meeting of the new Limited Company; and as the previous meeting—the last of the old Company—had been held in January, the report covered a period of only three and a quarter months. This period, however, had been of very considerable importance to the interests of the Company because during this period for the first time in the history of the Company they had received returns for sugar sold. The out-turn had begun in the first week in January, and the returns so far had greatly exceeded the estimates made just before the out-turn commenced. They estimated that they would turn out about 855,000 worth of sugar during the present year; and up to the present time, assuming that the out-turn during the present month had been as good as during April—which they had no reason to doubt, they had sold about \$27,000 worth already, and a private character for official purposes, than the Manager told them he expected to sell about \$50,000 worth during the first six months of this year. Then the mill would rest for three months, and during the last three months, the Manager believed they would make an even bet ter average; but even at the same rate it would give a total for the year of \$75,000, against an estimate of \$55,000, showing an improvement of just from a cold which necessitated our Foo going about 35 per cent. Active preparations are going on for the tour of the Seventh Prince, and an official list has Chinese Imperial Loan of 1884 C-7 per cen been issued of over 200 persons who are to accompany H.I.H. Probably they will not all embark in the Prince's tender, or with the ad-"dition of the Viceroy's suite, they will press hard on the saloon accommodation of the Hrear.

It appears that some of the foreign ministers are desirous of attaching themselves to the Prince's following in order to get a glimpse of his face. The French Minister has notified that he wishes to entertain the Prince at Chefoo and that he is getting up the Admirsl in the Turenne for that purpose. This makes H.E. very anxious to clear up his business in Korea in order to be back in time to catch the Prince. The German Minister has also intimated through his usual sub-official channels that he will proceed to Tientsin for the express purpose of paying his respects to the Prince, who may be induced to receive there the homage which stiquette for-bids him to receive in Peking. Whether any of the other Ministers are going to join in the Prince-hunting expedition is uncertain. -NC. Daily News Correspondent.

LONDON, 1st May. Daily meetings are taking place in various parts of the United Kingdom, for the purpose of explaining the merits of the Irish Home Rule and Land Purchase Bills, which have been introduced by Mr. Gladstone in the House of Commons. It was not until I tried to spring away that I realised my situation. At the first move I was jerked in the most violent manner towards the rock, and the burning increased tenfold.

An octopus had gripped me! He had three of his terrible arms around me, and was drawing me to the rock. How his suckers burned and blistered! How the hairy arms gripped and twisted!

He had been wondering, in a confused C kind of way, how he should set about clearing his character in the eyes of this girl. The recollection of the letter suggested that it might lead to the discovery of the real culprit with whom he could communicate. He drew the letter from the envelope, and a single glauce at the handwriting sufficed to reveal to him what he wished to know. The bandwriting was unmistakably that of Mangrave Vernon, the man of all others whose career and reputation he had most envied.

This discovery, jarred unpleasantly upon young Thurston's feelings. Most people would have been less surprised than he at h such a revelation. Mr. Mangrave Vernon was a man of fashion, a man of pleasure—a social butterfly, in fact; agreeable, witty, suspected, and knowing ones had long ago found out. He had treated Thurston with consideration, for the young fellow was rich and well connected; and therefore the lad, admiring his dazzling qualities, had secretlyworshipped him and made him his idol.
